Providing Leveraged Exposure to the Canadian REIT Sector

The BetaPro Equal Weight Canadian REIT 2x Daily Bull ETF (“HREU”) is designed to provide leveraged daily exposure to Canadian Real Estate Investment Trusts (REITs), which are companies that own and operate real estate properties. HREU provides high conviction investors the opportunity to potentially generate excess returns relative to the broader Canadian REIT sector.

HREU seeks daily investment results, before fees, expenses, distributions, brokerage commissions and other transaction costs, that endeavour to correspond to two times (200%) the daily performance of Solactive Equal Weight Canada REIT Index. HREU does not seek to achieve its stated investment objective over a period of time greater than one day.

All registered and non-registered investment accounts
Important Risk Considerations
HREU uses leverage and is riskier than funds that do not.

HREU is very different from most other exchange traded funds, and is permitted to use strategies generally prohibited by conventional mutual funds. While such strategies will only be used in accordance with the investment objective and strategy of the ETF, during certain market conditions they may accelerate the risk that an investment in the units of the ETF decreases in value.

HREU, before fees and expenses, does not and should not be expected to return two times (e.g. +200%) the return of its Underlying Index over any period of time other than daily.

The returns of HREU over periods longer than one day will, under most market conditions, differ in amount and possibly direction from the performance of its Underlying Index for the same period. This effect becomes more pronounced as the volatility of HREU’s Underlying Index and/or the period of time increases.

Investors should read the prospectus to understand the risks, and monitor their investments in the ETF at least daily.

Key Features
- **The Only 2x Leveraged Canadian REIT ETF.** HREU provides investors with 2x the exposure to the Canadian REIT sector as measured by the Underlying Index
- **No Margin.** Investors do not need a margin account to use HREU to take a leveraged position on Canadian REITs. As a result, the risk of the ETF is limited to the capital invested
- **ETF Liquidity.** HREU can be bought and sold on the Toronto Stock Exchange throughout the normal trading day, using a brokerage account
- **Diversification.** Achieve exposure to the Canadian REIT sector as represented by the Underlying Index, reducing the volatility of taking on leveraged exposure to a single stock
BetaPro Equal Weight Canadian REIT 2x Daily Bull ETF

**Underlying Index**

Solactive Equal Weight Canada REIT Index
HREU uses the Solactive Equal Weight Canada REIT Index as its Underlying Index. The Solactive Equal Weight Canada REIT Index includes TSX-listed securities that are classified within the Real Estate Investment Trust industry classification. Constituents are subject to minimum market capitalization and liquidity screens. Constituent Issuers are equally weighted at each rebalancing and this Underlying Index is rebalanced semi-annually in March and September.

HREU typically uses the price of the Solactive Equal Weight Canada REIT Index as determined at approximately 4:00 p.m. (EST) as the reference for its daily investment objectives.
